COMPTROLLER'S REPORT.

EXECUTIVE DEPARTMENT, ? Raleigh, Nov. 24, 1837.

SIR-The Report of the Comptroller, which has been made to the Executive, is, by an Act of the last session of the General Assembly, required to be published in five of the newspapers of this State. It is, therefore, handed to you for insertion in your paper, and through the medium of which I have to request the favor of the Editors of the Register and Standard, of this place; Watchman, of Salisbury; and Spectator, of Newbern, to insert the same in their papers respectively.

The better to explain the transactions of the Boards of the Literary Fund and Internal Improvement, of which the Governor has been made the President ex officio, and as may be expected of him at the period of the Comptroller's report, the opportunity is embraced of submitting a condensed statement of their fiscal operations, with a few remarks.

It will be seen that the greater part of the funds of the Literary Board has been, as directed by law, loaned out, until they shall be required for the draining the swamp lands and the establishment of common schools. With the view of commencing the former, an Engineer has recently been appointed; and as soon as the titles can be ascertained, with reasonable certainty, to be in the State, and the most promising portions selected and surveyed, the work will be commenced. Both the titles and lands are now being examined.

The establishment of common schools will yet require legislative action. The funds under the coutrol of the Board of Internal Improvenents, as also directed by law, have been loaned out until wanted to meet appropriations

-the greater part to corporations. The inducements to loan to the Banks were strong and conclusive, viz. a considerable sum would at once be put on interest, and the payment as well secured as it could possibly be from any other source-under an agreement that indulgence would be granted to their debtors to an equal or greater amount, and the money returned, on short notice, when wanted.

It will be recollected that the General Assembly has appropriated all the "surplus" of this Fund, on certain conditions, to Rail Road Companies. One company having complied with those conditions, and entitled itself to the patronage of the State, and commenced a work of great magnitude, it was necessary to place the funds for this Road in a situation where they could be commanded, to meet the obligations of the State faithfully, and insure the progress of the work with more certainty.

I am, very respectfully, your ob't serv't, EDW'D B. DUDLEY.
